Welcome to PretzelTime!

PretzelTime is a simple website where people can come and talk to other people about movies they have seen recently.

How does PretzelTime work?

Anyone, with an account, can create or comment on a post. The user that creates the post or comment will have full control over editing or deleting. PretzelTime is meant to be simple and easy to use. Users will be able to create an account in seconds and post right after account creation.

What makes us different?

PretzelTime was made with the intent to have the users in mind. No critics, no professional reviews. Every post, opinion, and comment is a person's individual opinion.

Anyone can view the posts and their comments, but in order to partake in a conversation the person will have to create an account. This space is meant to be a free, respectful, and open place where people should be free to express their opinions at their will. However, there is a limit to how many comments one user can comment. Users have the choice to be anonymous or to show their name publically.
