

File from users install directory

- ⑥ Cycle through conduits calling them
- ⑦ Second install cycle
- ⑧ Desktop backup to
C:\Palm\Pollett\Backup
- ⑨ Info on ~~the~~ handheld about last
hotsync updated
- ⑩ Notifier DLL's called to say hotsync over
- ⑪ SysAppLaunchCmdSyncNotify event
generated on Palm.

Installing Conduits Manually

Used to have to use RegEdit before version 3.0

Now have a tool w/ SDK called
CondCfg.exe (in \bin\HSM\Release)

same dir
of user's
dir

0-4
